## TECHNICAL EXPERIENCE

### Projects

#### ONLINE-SALES-REPORT

[View project](#)

- ☐ This is a simple web based application made in **J2EE**, **MySQL** and **JDBC** where a salesman can enter the report of sale of available products and can see monthly, zone wise reports. It also has a separate login for admin who can manage products availability.

#### SAVE-THE-BALL

[View project](#)

- ☐ A double player tennis video game in which two players can play against each other using keyboard controls. To challenge the players the difficulty level of the game will increase after each complete cycle of the ball i.e , the speed of the ball will be increased each time it hits the racquet of player 1.
